Completer Exit Survey – Initial Programs Satisfaction of Completers (4.4)

The Texas Education Agency (TEA) requires every initial certification program completer to complete an exit survey prior to activation of the individual's teaching certification (license). The results of the survey are provided annually to the EPP, along with the statewide responses as a comparison. Overall scores in each area provide evidence that initial program completers for 2019-20 felt they were well prepared or sufficiently prepared across all areas.

The EPP uses or proposes to use two additional measures to assess completer satisfaction: the first-year teacher survey administered by the Texas Education Agency (TEA) and an EPP-developed alumni survey. The plan for the alumni survey is provided as a separate document with these annual reporting measures. Due to COVID-19, the TEA did not administer the first-year teacher survey in 2019-2020, but anticipates that data will be gathered for the 2020-2021 school year.
